## Work Experience

SINCE MARCH, 2022

GLASGOW, UK

### UX Designer at Equator

- Designing & prototyping user interfaces and user experiences (and respective visual assets) from scratch.
- Creating user flows, responsive wireframes, high-fidelity designs, systems, and prototypes in Figma.
- Participating in user experience workshops with clients, defining their problems and mapping user journeys
- Collaborating closely with the strategy team to gain context and understanding of the goals of the project.
- Working with the development team to clarify the requirements and provide feedback on the build, so that design and implementation are in alignment.

AUGUST, 2019 TO MARCH, 2022

GLASGOW, UK

### Digital Designer at Junction 18

- Creating rich digital learning games for the company's clients (HSBC, Deloitte and many others).
- Working side to side with 3D designers and learning designers to create immersive learning experiences.
- Creating custom illustrations and 3D universes for the various learning modules.

FEBRUARY, 2015 TO AUGUST, 2019

LONDON, UK

### Interactive Designer at Everything Connected

- Creating online creative directions for the agency's various clients.
- Participating in client meetings to receive design briefs and to present creative concepts.
- Working closely with the development team after design sign off to ensure a good end product.
- Working on different types of projects, such as illustration, branding and website interaction animation.

FEBRUARY, 2014 TO FEBRUARY, 2015

LONDON, UK

### Digital Designer at Wickedweb

- Creating website concepts for the agency's pitches.
- Carrying out creative concepts onto website pages.
